

Executive Roundtables

Executive roundtables with the Percipio Company create the opportunity for executives to dig deeper and examine what it means to be an inclusive leader. These sessions push your executives to self-reflect, open up and recognize opportunities for both individual and organizational growth. We introduce a common language, prioritize and model human connections and explore provocative, sensitive, and relevant topics in diversity, equity, inclusion, and belonging. We provide tools, tactics, and techniques to engage executives with how to handle sensitive conversations and simplify complex goals, and explore various dimensions of diversity impacted by dominant social biases.

Outcomes of the Percipio Company executive roundtables:

- Learn to tell your own diversity story
- See yourself in the solution
- Embrace diversity as a critical strength and business imperative, not a problem that needs to be solved
- Deepen your understanding of dimensions of diversity and move beyond the binary
